Introduction

Why Become Certified? Certification provides an unbiased measurement of a person's ability to perform certain tasks and functions. Individuals who hold a professional certificate are a step ahead of their peers with tangible evidence of their ability to perform.

Laboratory animal resource managers face many challenges including an increasingly multicultural workforce, rapidly changing technology, and ever changing regulation and institutional policies. Managers who can consistently and effectively meet these challenges are in great demand. The Certified Manager of Animal Resources (CMAR) program is designed to raise competency and professionalism in the field of laboratory animal resources management.

Reasons Why You Should Become CMAR-Certified:

1. As a CMAR certificate holder, you will be recognized as an industry professional.
2. Employers often rely on certification credentials as a factor in promotions or hiring.
3. Certification helps managers evaluate strengths and weaknesses.
4. Employees engaged in certification typically have greater longevity in the profession.
5. Certification typically builds confidence and improves performance.

The CMAR Program

Program History. In 1999, the American Association for Laboratory Animal Science (AALAS) and the Laboratory Animal Management Association (LAMA) partnered with the Institute of Certified Professional Managers (ICPM) to establish a certification program designed specifically for the laboratory animal resources manager. The alliance combines AALAS' and LAMA's expertise in laboratory animal science with ICPM's expertise in management to form a joint certification program for laboratory animal managers. The first Animal Resources Exam was given at the AALAS National Meeting in Baltimore, MD, in October of 2001.

The CMAR Team. The CMAR team consists of a unique joining of resources between AALAS, LAMA, and ICPM for the development and administration of the CMAR program. A CMAR Committee, whose members are jointly appointed by AALAS and LAMA, has the responsibility for establishing program policies and procedures, developing examination questions, establishing eligibility requirements, and evaluating exam quality. This committee's responsibility in overseeing the CMAR Program is equivalent to that of the Certification and Registry Board (CRB) which oversees the Technician Certification Program.

Candidates who meet the CMAR eligibility requirements and pass the four exams are certified in the name of AALAS, LAMA, and ICPM. ICPM works with AALAS staff and the CMAR Committee to manage the Animal Resources Exam and to process the exam results.

Recent Changes to the Program

On May 1, 2007, new eligibility requirements were approved for the CMAR program.

CMAR Eligibility Requirements. The eligibility requirements to qualify for the CMAR program are as follows:

- Candidates with a bachelor's degree must have at least 5 years (9,750 hours) of work experience in the laboratory animal field. At least 3 years (5,850 hours) of that work experience must be in a managerial capacity.
- Candidates with an associate's degree must have at least 8 years (15,600 hours) of work experience in the laboratory animal field. At least 3 years (5,850 hours) of that work experience must be in a managerial capacity.
- Candidates with a high school or GED diploma must have at least 10 years (19,500 hours) of work experience in the laboratory animal field. At least 3 years (5,850 hours) of that work experience must be in a managerial capacity.

Requests for Exceptions and the Appeals Process. Requests for exceptions to any of the policies stated in the CMAR Handbook or any certification-related appeals should be made in writing and addressed to the co-chairs of the CMAR Committee c/o the AALAS national office.

- No one other than the candidate may make such requests.
- The CMAR committee will respond in writing within 60 days of the AALAS office receiving the appeal.

If not satisfied with the decision of the committee, the candidate may request further review by the AALAS President and Board of Trustees.

GI Bill

Under the GI Bill, veterans are entitled to reimbursement for licensing and certification tests. AALAS' CMAR Program is approved by the Veteran's Administration. For more information, please contact your VA regional office or visit <http://www.gibill.va.gov/Education/LCweb.htm> and search on AALAS.

The CMAR Program Exams. The CMAR Program consists of four exams:

- The Animal Resources Exam that is administered by AALAS.
- Three Certified Manager exams that are administered by the Institute for Certified Professional Managers (ICPM).

The CMAR candidate must pass all four exams to earn the title of a Certified Manager of Animal Resources. The exams may be taken in any sequence. Please be advised that candidates have a time limit to complete these exams. For more information, please refer to each exam section in this handbook.

You will be certified for a period of two years from the date of your becoming CMAR certified; i.e., the date of your completion of all four exams with a passing score. To maintain your CMAR status, you must re-certify in the CMAR Program every two years upon your anniversary date. Re-certification shows your dedication to excellence in continuing your personal development. Please refer to the section on re-certification in this handbook.

The Certified Manager (CM) Exams

The CMAR program includes the three Certified Manager exams, which are administered by ICPM.

Institute of Certified Professional Managers (ICPM). In 2000, ICPM formed an alliance with AALAS and LAMA which created the CMAR program. The alliance combines ICPM's expertise in management with AALAS' and LAMA's expertise in animal laboratory science to form a unified certification program for animal lab managers. ICPM is a non-profit corporation whose mission is to increase the professionalism and competency of managers. Since 1974, ICPM has certified over 10,000 managers worldwide.

The CMAR program is comprised of three Certified Manager (CM) exams and one Animal Resource (AR) exam. The CM exams, exam standards, and requirements are developed and administered by ICPM. The AR exam, exam standards, and requirements are developed and administered by AALAS and LAMA. The exams may be taken in any order.

Application. Application to take the CM exams is made by completing the CM application form. Application forms can be completed online at www.icpm.biz or can be requested in paper or downloadable file formats by phone or email. ICPM also accepts the CMAR application as a substitute for the CM application. Completed applications (including payment) can be mailed, faxed, or sent electronically to ICPM using the contact information below.

Institute of Certified Professional Managers, James Madison University, MSC 5504, Harrisonburg, VA 22807

Phone: (800) 568-4120. Fax: (540) 801-8650. Email: icpmcm@jmu.edu. Web: www.icpm.biz.

Applicants have 15 months from the date of CM application approval to complete the CM exams. Applicants who do not complete the exams in the designated time frame will be charged a \$50 reinstatement fee by ICPM to continue with the exams for an additional 15-month period.

Study. ICPM provides three printed study manuals and an online learning center to facilitate preparation for the CM exams. The study manuals are titled as follows:

- Management Skills I: Foundations of Management
- Management Skills II: Planning and Organizing
- Management Skills III: Leading and Controlling

Content of the manuals integrates contemporary management theory with the more traditional management approach of planning, leading, organizing, and controlling. The content is supported by integrated case examples, application-based exercises, and review questions. The online learning center features practice exams, chapter reviews and summaries, PowerPoint slides, quizzes, and additional application exercises.

Exam Format. The 3 CM exams are aligned with content covered in the 3 study manuals. Each exam is a 2-hour, timed exam that consists of 120 multiple-choice questions that test knowledge, decision-making, and analytical skills. Exams can be taken on paper or online and are administered at the test taker's workplace by a proctor (usually a member of the human resources staff). Online exam instructions are emailed to test takers, and passwords are emailed to proctors. Test takers should contact ICPM 5 to 7 days before they are ready to test to make arrangements. It is recommended that the CM exams be taken one at a time after studying each manual.

Exam Results. Online exams provide immediate “pass” or “fail” results at the conclusion of each exam. Paper exams are graded on the 16th of each month or the next business day. Official results for both online and paper exams are reported by mail immediately thereafter.

Certification. Upon successful completion of the three CM and one AR exam, program participants are awarded the CMAR certificate.

Questions and Information. Questions can be addressed to ICPM by calling (800) 568-4120 or emailing ICPM at icpmcm@jmu.edu. Office hours for ICPM are Monday through Friday, 8 a.m.–5 p.m. EST.

Exam Time Limit

An email of acceptance into the CMAR program will include the date for the time limit (15 months) by which the candidate must pass the Animal Resources Exam and apply to ICPM.

The Animal Resources Exam

The CMAR Program is administered by AALAS.

Exam Policies. The CMAR candidate must pass all four exams to earn the title of a Certified Manager of Animal Resources. The exams may be taken in any sequence.

Time Limit for Taking the Animal Resources Exam. Candidates applying have 15 months in which to take the Animal Resources Exam after their applications are approved. These candidates will be notified of their 15-month period in email confirming acceptance in the program. If a candidate does not take the Animal Resources Exam during his/her 15-month period, the candidate will forfeit the application and exam fees and will have to resubmit full payment to take the exam at a later date.

Any candidate who is unable to comply with the 15-month deadline can request an additional 15-month extension by submitting a Maintenance Form and a maintenance fee. This fee ensures that the candidate maintains eligibility status and grants him or her an additional 15-month period to pass the AR exam and apply to ICPM. Only one extension will be permitted; after that, the candidate will have to submit a new application and pay the exam fee again.

Administration of the Animal Resources Exam. The Animal Resources Exam is currently available only as a pencil-and-paper exam at certain scheduled venues; i.e., the AALAS National Meeting, the LAMA Annual Meeting, and certain AALAS district meetings. The CMAR committee is aware of the difficulties managers and administrators may have in arranging to attend meetings. *Therefore, upon request, AALAS can work with candidates to arrange paper-and-pencil exams to be proctored at the candidate’s facility usually by the human resources department.* Please contact the AALAS national office for more information.

To apply, qualified candidates must submit a CMAR application and fees to AALAS before the published deadline (usually three weeks prior to the Animal Resources Exam).

For information on preparing for the Animal Resources Exam, please refer to the two sections later in this handbook: *Animal Resources Exam Topics* and *CMAR References*.

Eligibility to Proctor. AALAS staff, CMAR-certified AALAS/LAMA members, or a member of a human resources department are eligible to proctor the Animal Resources Exam.

- Proctors must sign a confidentiality form from AALAS
- No proctor may be in the direct or indirect reporting structure of the exam candidate.
- Proctors must hold the title of manager or higher, or be a member of the human resources department.

Exam Authorization. Upon receipt of the completed application and fees, the AALAS office will review the information and then contact you regarding your candidate status in relation to the requirements of the program. If you have chosen a venue with established time and date, an authorization to test letter will be sent by mail and fax 7–10 days before the scheduled exam. If you are obtaining a proctor at your facility, an authorization to test will be sent after a proctor has been chosen and approved, and the candidate and proctor have agreed upon a date and time for the exam. Please allow 3 weeks for all arrangements to be accomplished when selecting a proctored exam.

Scheduling the Exam. Upon receipt of the acceptance email, the candidate can request to be scheduled for the Animal Resources Exam at an available venue. Upon receipt of the request, AALAS will respond by email and by letter with specific information and instructions for taking the exam.

Receiving Your Exam Results. After your exam has been graded, you will receive your exam results from AALAS by US mail within 2-4 weeks.

- If you passed the exam, you will receive a notification letter. You will receive an exam score or a break-down of your exam performance. When you have completed all four CMAR Program exams, you will receive a CMAR certificate.

- If you did not pass the exam, you will receive a letter notifying you of your score and a summary of performance (strengths and weaknesses) according to each exam topic area. Use this information to guide your studies in preparation for retaking the Animal Resources Exam.

Reapplying for the Animal Resources Exam. If you do not achieve a passing score on the Animal Resources Exam, you may reapply to take the exam again. To reapply for the Animal Resources Exam, the following will be required:

- A completed CMAR application form
 - If within a year of your last Animal Resources Exam, you may omit the Work Experience Verification.
 - If more than a year since your last Animal Resources Exam, you must include all necessary documentation including Work Experience Verification.
- Payment (charge card number or check) for application fee, exam fee, and the processing fee (for nonmembers).

Fees

Application Fee.. \$25²

Exam Fee.....\$85

Nonmember
processing fee ... \$75^{1,2}

¹waived for AALAS or LAMA
members

²non-refundable

Fee Policies/Refunds.

- A candidate may receive a refund of the exam fee if notification of cancellation is received at least one week before the exam date.
- The application fee is not refundable.
- The nonmember processing fee is not refundable.

Fee Forfeiture. The candidate will be designated as a “No-Show” at an exam if the candidate:

- Cancels the exam too late (less than one week before the exam date).
- Does not appear for the exam.
- Arrives late at the exam (30 minutes or more past the scheduled start time).

No-show candidates will forfeit all fees from the missed exam. To take the Animal Resources Exam at a later date, an application form and all related fees must be resubmitted.

Watch for new exam content coming in June 2009!

Animal Resource Exam Topics

- A. Optimizing Facility Resources
 1. Evaluating, Planning, Renovating, and Monitoring Facilities
 2. Standard Operating Procedures (SOP)
 3. Protecting Assets and Personnel
 4. Disaster Planning and Management
- B. Managing Fiscal Resources
 1. Developing and Monitoring Budgets
 2. Grants and Contracts
 3. Cost Management
- C. Achieving Regulatory Compliance
 1. OSHA/Safety/HAZMAT
 2. IACUC
 3. FDA/USDA/EPA/PHS
- D. Managing Animal Welfare
 1. Animal Health, Controlling Disease, and Veterinary Care
 2. Training Personnel and Handling Incidents
- E. Assuring Public Trust
 1. Ethical Considerations and Euthanasia
 2. Public Relations, Customer Service, and Professionalism

Additional Readings List

The CMAR Committee and the Certification and Registry Board collaborate on maintaining an Additional Readings List that provides in-depth coverage of many topics in the laboratory animal field. These readings may also assist you in preparing for the Animal Resources Exam. The list is available from AALAS and can be downloaded from the AALAS web site.

CMAR References

The CMAR Committee maintains a list of recommended study materials for candidates to use in preparing for the Animal Resources Exam. These items are also available from AALAS as a CMAR Resource Kit and can be purchased through the AALAS bookstore.

8. Managing the Laboratory Animal Facility, Jerald Silverman, CRC Press, 2002.

Format of the CMAR Program Exams

The Certified Manager exam consists of 120 multiple-choice questions with one correct answer among five choices. The Animal Resources Exam is a three-hour exam consisting of 150 questions that tests a combination of knowledge and judgment based on experience obtained as a manager in the laboratory animal field. The Animal Resources Exam is modeled after the Certified Manager exams developed by ICPM. In tests of management skills, the candidate must demonstrate an ability to function in situations that require sound decision-making abilities in addition to having knowledge relevant to the field. To be successful in the Certified Manager exams and the Animal Resources Exam, you must demonstrate real-world analysis and decision-making skills that are often learned from practical experience outside of a classroom. Therefore, these exams consist of questions that reflect knowledge obtained from both reading and experience in real-world settings.

The following are examples of the types of questions on these exams: knowledge-based questions, analytical questions, and decision-making questions. A brief description and an example of each are presented. (Bold indicates correct answer)

Knowledge-Based Questions. Knowledge-based questions tap into facts and concepts that the manager learned either in day-to-day business activities or through reference books.

What is OSHA?

- A. Occupational Safety and Health Administration**
- B. Occupational Standards in Hiring Administration
- C. Oversight Standards in Health Agency
- D. Overseers and Supervisors Hiring Act
- E. Overtime Standards in Hiring Act

A manager's responsibilities typically include all of the following except:

- A. Planning
- B. Payroll**
- C. Supervision
- D. Coordination
- E. Control

Analytical Questions. Analytical items go beyond basic knowledge to test if the manager understands causes and relationships, and can translate information from one mode (e.g., graph) to another (e.g., statement of economic prediction). Analytical skill is important in the performance of management duties.

Which of the following summarizes the importance of history for the manager?

- A. Yesterday's problems can provide insight into today's situations.
- B. Past experiences may serve as precedents to be considered in formulating new solutions.
- C. A manager should have the widest possible knowledge in many areas.
- D. A and B**
- E. A, B, and C

Which of the following describes a cause of increased productivity due to specialized effort?

- A. The job skills of individual employees tend to increase.
- B. Time is used more efficiently.
- C. More specialized and efficient machinery is encouraged.
- D. All of the above**
- E. None of the above

Decision-making Questions. Decision-making questions take the examinee into the "real world" to see if solutions to hypothetical situations can be concluded, if mathematical situations can be deduced, or if mathematical data can be extrapolated or solved. Decision-making usually requires both knowledge and analytical skill to determine the best solution.

An employee has made an honest mistake that results in a good deal of embarrassment for you as his/her superior. As the supervisor, you should:

- A. Accept the consequences of the mistake yourself, but try to make your employee aware of the problems that his/her actions have caused you.**
- B. Send the employee to your own superior to explain the situation.
- C. Advise the front office that the employee was careless and should have known better.
- D. Convince the employee and his/her coworkers that he/she has let the department and the company down.
- E. Discipline the employee immediately as a lesson to everyone in the department.

Don't Forget to Re-certify

Please note that it is possible to lose your CMAR status. After four months without recertification, the CMAR status becomes inactive; after two years, status is rescinded and the exam must be taken again at full cost.

Requirements for Recertification

To maintain your status as a Certified Manager of Animal Resources, you must submit to AALAS a re-certification fee and 24 CEUs (continuing education units) obtained over the two-year period prior to your certification anniversary date.

CMAR Re-certification

Requirements for Re-certification. To maintain your status as a Certified Manager of Animal Resources, you must submit to AALAS 24 CEUs (continuing education units) obtained over the 2-year period prior to your certification anniversary date, along with a recertification fee (\$40 AALAS members/\$75 nonmembers). ICPM recognizes that CMAR recertification fulfills all CM requirements. CM re-certification is not required. Your CMAR status will be on record with both AALAS and ICPM.

Re-certification Procedures:

- Obtain a CMAR CEU Submission Form and a List of CMAR CEU Activities (included in this handbook and available on the AALAS web site). CMAR materials can be downloaded from the AALAS web site (<http://www.aalas.org>) under Certification. Or, contact the AALAS office for a copy of documents.
- When you are due to re-certify your CMAR status, submit to AALAS your completed CMAR CEU Submission Form, all CEUs for the 2-year period, and the re-certification fees at one time.
- Your CMAR re-certification fee covers your next 2 years of CMAR status.
- You do not need to be a current AALAS national member to re-certify your status as a CMAR. Membership in national AALAS or LAMA provides a discount on the re-certification fee.
- Keep records of your CEU documentation. CMAR Committee conducts audits annually. Individuals who are randomly selected for audit will be requested to send their CEU documentation to AALAS.

Policies on Late Re-certification. Re-certifications submitted over 4 months past the due date are subject to an additional late-payment fee. For AALAS members, the late fee is \$40. For nonmembers, the fee is \$75. Please submit both re-certification and late fees. After 4 months without re-certification, the CMAR status becomes inactive. A new month for recertification will be issued to coincide with the month that the recertification and late fees were paid. This change of date will indicate a late recertification.

After 2 years without re-certification, the CMAR status is rescinded. To regain the CMAR status, the Animal Resources Exam must be taken and passed again at full cost.

Don't forget—a late payment applies if you fail to re-certify on time.

CMAR RE-CERTIFICATION LIST OF EXAMPLE CE ACTIVITIES

<u>Activity</u>	<u>CEU Value</u>
Formal Educational/Personal Development Courses	
Course or educational program	1 per classroom/lecture hr.
Institute for Laboratory Animal Management (ILAM)	32 CEUs per level
SUNY Delhi Technologist Review Class	60 CEUs
Scientific/professional meeting or conference	1 per classroom/lecture hr.
In-House Training Courses	1 per classroom/lecture
Veterinary Technician Review Articles and Tests	0.5 CEU per issue
JAALAS continuing education modules	2 CEUs per issue
College courses	9/semest. hr or 6/qtr. hr.
Short courses, seminars, audio/visuals, or auto-tutorial programs at a lab animal science meeting....	1 per classroom/lecture hr.
Active participation in a workshop at a lab animal science meeting	1 per classroom/lecture hr.
Wetlabs and workshops (hands-on learning)	1 per classroom/lecture hr.
<i>Correspondence course CEU values will be evaluated on a case-by-case basis by the CMAR Committee.</i>	

Publications, Reports, Presentations

First author of an article, book chapter, poster, etc., in a refereed publication (e.g., CT/JAALAS or <i>Comparative Medicine</i>)	8 per publication
Any other author in a refereed publication, presentation, poster, etc.	5 per publication
Referee or review of national journal article or program	2 per item
Technical or management article published	4 per article
Paper, lecture, or poster presentation OR workshop leader at a(n):	
AALAS National Meeting or AALAS District/regional meeting	3 per paper/program
AALAS Branch meeting	2 per paper/program
LAMA Annual Meeting	5 per paper/program
Other national conference of a national lab animal organization	5 per paper/program
In-house presentation	1 per paper/program
International lab animal science meeting	5 per paper/program
ABR local chapter, school presentation, etc.	2 per paper/program
AALAS Certification Preparatory Course Instruction	2 per classroom/lecture hr.

A maximum of 6 CEUs can be claimed for the same topic presentation over a two-year period.

Professional Society Participation

National AALAS officer, trustee, or committee member	6 per year/position
Officer/committee member of an AALAS branch or affiliated organization	3 per year/position

Online Learning Courses

AALAS Learning Library	CEUs as stated per course
------------------------------	---------------------------

Other online course CEU values will be evaluated on a case-by-case basis by the CMAR Committee.

CMAR APPLICATION APPEAL FORM

Instructions

1. Submit this form to AALAS for consideration by the CMAR Committee.
2. Attach a complete CMAR Application Form with required documentation (education, work experience).
3. Attach 3 letters of recommendation and your resume with the application and appeal form.
4. Do not submit payment for exam fees.
5. Attach documentation for the activities you list below as substitute criteria.

Name: _____

Address: _____

I am applying for a waiver to the (education/experience, please specify): _____

criteria for the Animal Resources Exam of the CMAR Program because: _____

Activities that I have participated in that I feel would substitute for the above criteria include the following:

Activity	Dates	Comment
Certified Manager (from ICPM)		
ILAM Graduate		
Attended LAMA Annual Meeting		
Other:		
Other:

Signed: _____ Date: _____

CMAR APPLICATION FORM

Instructions

Your aim to become a CMAR demonstrates your commitment to high standards and professional growth in the laboratory animal management field. Before applying, verify with AALAS that you have the current application.

Step 1: Complete the work experience portion of this form. You must meet one of the following criteria:

- Candidates with a bachelor's degree must have at least 5 years (9,750 hours) of work experience in the laboratory animal field. At least 3 years of that work experience must be in a managerial capacity.
- Candidates with an associate's degree must have at least 8 years (15,600 hours) of work experience in the laboratory animal field. At least 3 years of that work experience must be in a managerial capacity.
- Candidates with a high school diploma or GED must have at least 10 years (19,500 hours) of work experience in the laboratory animal field. At least 3 years of that work experience must be in a managerial capacity.

Step 2: Complete the educational background portion of this form and include a copy of diplomas and/or transcripts.

Step 3: Have your current and previous employers complete a Work Experience Verification Form for you. Completed forms must be submitted with your CMAR application.

Step 4: Complete the Assurances section. Read each statement, then sign and date the line below.

Step 5: Attach payment by check or fill in all charge card information.

Step 6: Register and take the Animal Resources Exam within the next 15 months.

AALAS Membership number _____

LAMA Membership status _____
(If you are a LAMA member but not an AALAS member, please provide documentation of your current membership to receive the processing fee waiver.)

Name _____
(First) (Middle) (Last)

Exact name as you wish it to appear on certificate *(please print)*

Home address _____

State: _____ Zip Code: _____

Education

Include copies of degrees, transcripts, and/or diplomas to verify eligibility. Foreign documentation must be translated into English. Provide information on your diploma or highest degree.

Are you applying under the::

- Bachelor's degree eligibility
- Associate's degree eligibility
- High school diploma eligibility

Institution Name _____

Location _____

Degree _____ Date _____

Certified Manager Exams

The CMAR Program consists of four exams: the Animal Resources Exam, which is administered by AALAS, and three Certified Manager (CM) exams, which are administered by the Institute for Certified Professional Managers (ICPM).

Have you applied to ICPM to take the CM exams? Yes No

Have you completed all the CM exams? Yes No

Request for Animal Resource Exam Venue

Please indicate the venue of your choice for taking the Animal Resource Exam. Exam date must be within the next 15 months. For venue information, refer to www.aalas.org; click on Certification, then Management Certification. Eligibility for the Animal Resource Exam is based upon your work experience and your educational background.

Conference/Meeting title _____

Date _____

Laboratory Animal Experience

Complete a Work Experience Verification Form for each employment you list in this section. Attach additional sheets as needed to list additional institutions. 1,950 hours of experience (average of 37.5 hours a week) equates to one year of work experience.

= Total Years

Laboratory Animal Resources Experience

■ Institution name _____ *Start date mo/yr* *End date mo/yr*

Name _____
Address _____
City _____ State _____ Zip _____
Fax: _____

Section 5: Please submit all 24 CEUs together in a single form. For each CEU activity, please enter on the table below the title of the continuing education activity, the name of the sponsoring organization, the date of the event, and the number of CEUs earned. Insert your total CEUs at the bottom. Keep all documentation, but submit only if you are chosen for the annual audit.
